# About Inspire QAS

Inspire QAS Sdn. Bhd. (IQAS) is an independent, third-party product certification body established to certify tangible construction products in accordance with:

- MS ISO/IEC 17065:2012
- ISO/IEC 17067:2013 (Type 5 Certification Scheme)
- Applicable Malaysian & International Standards

We provide structured, impartial, and technically robust certification to ensure construction products meet regulatory, contractual, and market requirements.

Our certification model integrates product testing, factory production control assessment, and ongoing surveillance to ensure continuous conformity.

**Non-discrimination**

**Transparency**

**Accountability**

# What Makes Type 5 Certification Different?

Type 5 Certification is the highest level of structured product certification under ISO/IEC 17067. It includes:

Unlike one-time testing, Type 5 certification ensures long-term confidence in product performance.

## **Product Testing**

- Verification against applicable standards

## **Factory Production Control (FPC) Audit**

- Assessment of manufacturing processes and quality control

## **Independent Certification Decision**

- Made by a separate Product Certification Committee (PCC)

## **Ongoing Surveillance**

- Annual monitoring to ensure continued compliance

# Our Certification Process

Simple. Structured. Transparent.

## Enquiries and Application

1

### Review

Scope, standards, and requirements confirmed

## Document Review

2

Technical Documentation Assessed

## Factory Audit

3

On-site evaluation of production control system

## Product Testing

4

Sampling and testing in accredited laboratories

## Certification Decision

5

Objective review by Product Certification Committee

## Certificate & Surveillance

6

Certification granted with ongoing annual monitoring

*All certification decisions are based strictly on objective evidence of conformity.*

# Products and Standards that We Certify

**Our scheme covers a wide range of tangible construction products, including:**

- 1** Ready-Mixed Concrete
- 2** Precast Concrete Elements
- 3** Scaffolding Systems
- 4** Aluminium Frame Systems

Additional product modules may be introduced through Technical Annexes

# Governance & Impartiality

## Independent. Impartial. Credible.

### Product Certification Committee (PCC)

Independent technical body  
responsible for certification  
decisions

### Complaints & Appeals Committee (CAC)

Ensures fair and transparent  
dispute handling

### Impartiality & Independence Committee (IIC)

Monitors risks of conflict  
of interest

### Our promises

- Assessment personnel are never involved in certification decisions.
- Confidential information is protected in accordance with our documented policies

# Inspire QAS Certification Mark

Products certified by IQAS may bear the Inspire QAS Certification Mark in accordance with certification rules.

## The mark signifies:

- Verified conformity to recognised standards
- Independent third-party certification
- Ongoing surveillance and monitoring
- Structured Decision-making process

## Certification enhances:

- Market credibility
- Regulatory acceptance
- Tender eligibility
- Client confidence

Each certificate is traceable via a unique Certification Number.

# Start Your Certification Journey

## We provide:

- Structured and transparent certification process
- Competent technical auditors
- Clear reporting and objective evaluation
- Ongoing support throughout certification lifecycle
